Forecast for Tuesday 31 May 2022

Weather: Occasional showers during the early hours and at first Tuesday morning, with the showers heavy at times, with a small risk of hail and thunder. The showers will become more isolated and lighter mid-morning onwards, with most places becoming dry with lengthening sunny periods mid-afternoon onwards. Clouding over during the evening, with further showers arriving just before midnight.

Chance of cloud-free hill tops above 600m: 60% at first improving to 100% by mid-morning.

Low cloud and visibility: Some poor visibility over the higher routes at first with cloud bases lowering to 500-600m at times, especially in association with heavier showers. Cloud will lift clear of the summits by mid-morning and will remain above the summits through the rest of the day. Visibility beneath cloud generally good, but deteriorating to locally moderate or poor in showers.
